SCOPE OF COORDINATED PROGRAM REVIEWS

The Program Quality Assurance unit (PQA) of the Massachusetts Department of Elementary and Secondary Education oversees compliance with education requirements through its Coordinated Program Review System (CPR), through public school district, charter schools, collaborative, and private special education school program reviews, as well as reviews of certain Special Education in Institutional Schools Settings programs. The collaborative reviews cover selected requirements in the following areas:

Special Education (SE)

- selected requirements from the federal Individuals with Disabilities Education Act (IDEA-2004); the federal regulations promulgated under that Act at 34 CFR Part 300; M.G.L. c. 71B, and the Massachusetts Board of Education's Special Education regulations (603 CMR 28.00), as amended effective March 1, 2007.

Civil Rights Methods of Administration and Other General Education Requirements (CR)

- selected federal civil rights requirements, including requirements under Title VI of the Civil Rights Act of 1964; the Equal Educational Opportunities Act of 1974; Title IX of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act of 1990, together with selected state requirements under M.G.L. c. 76, Section 5 as amended by Chapter 199 of the Acts of 2011 and M.G.L. c. 269 §§ 17 through 19.
- selected requirements from the Massachusetts Board of Education's Physical Restraint regulations (603 CMR 46.00).
- selected requirements from the Massachusetts Board of Education's Student Learning Time regulations (603 CMR 27.00).
- various requirements under other federal and state laws.

Approved Public Day Program Standards

- selected requirements from the Massachusetts Board of Elementary and Secondary Education Special Education regulations from 603 CMR 28.09.
- selected requirements from the Massachusetts Program and Safety Standards for Approved Public or Private Day and Residential Special Education School Programs 603 CMR 18.00

COORDINATED PROGRAM REVIEW ELEMENTS

Team: Depending upon the size of and the number of programs to be reviewed, a team of two or more Department staff members, conducts a Coordinated Program Review.

Timing: Each collaborative is scheduled to receive a Coordinated Program Review every six years and a mid-cycle follow-up visit three years after the Coordinated Program Review.

Criteria: The criteria PQA uses for monitoring the collaborative programs are included in the Collaborative Information Package, along with citations to state and federal statutes and

regulations. These criteria cover the areas of special education and civil rights necessary to determine that special education and civil rights are being provided in accordance with applicable state and federal laws and/or regulations.

Methods: Methods used in reviewing programs include:

- Review of documentation about the operation of the collaborative programs.
- Interviews of administrative, instructional, and support staff across all selected programs and grade levels.
- Interviews of parent advisory council (PAC) representatives (if the collaborative has a PAC) and other interviews as requested by other parents or members of the general public.
- Review of student records for special education. The Department selects a representative sample of student records for the onsite team to review, using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Surveys of parents of students with disabilities whose files are selected for the record review, as well as the parents of an equal number of other students with disabilities, are sent a survey that solicits information regarding their experiences with the collaborative.
- Observation of classrooms and other facilities. The onsite team visits a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Report: **Preparation:**

At the end of the onsite visit, the onsite team will hold an informal exit meeting to summarize its preliminary thoughts for the collaborative director and anyone else he or she chooses. Within approximately 45 business days of the onsite visit, the onsite chairperson will forward to the collaborative director a Draft Report containing comments from the Program Review. The collaborative will then have 10 business days to review the report for factual accuracy before the publication of a Final Report. The Final Report will be issued within approximately 60 business days of the conclusion of the onsite visit and will be posted on the Department's website at <http://www.doe.mass.edu/pqa/review/>.

Content:

The Final Report will include the following:

Ratings. The onsite team gives a rating for each compliance criterion it reviews; those ratings are "Commendable," "Implemented," "Implementation in Progress," "Partially Implemented," "Not Implemented," and "Not Applicable."

Findings. The onsite team includes a finding for each criterion that it rates "Commendable," "Partially Implemented," or "Not Implemented," explaining the basis for the rating. It may also include findings for other criteria.

Response: Where criteria are found “Partially Implemented” or “Not Implemented,” the collaborative must propose corrective action to bring those areas into compliance with the relevant statutes and regulations. This corrective action plan will be due to the Department within 20 business days after the issuance of the Final Report and is subject to the Department’s review and approval.

As the collaborative implements the approved corrective action, Department staff will provide ongoing technical assistance.

The Department believes that the Coordinated Program Review is a positive experience and that the Final Report is helpful in planning for the continued improvement of programs and services in each school district, charter school, and educational collaborative.

Collaborative agencies must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department’s Final Program Review Report.

MASSACHUSETTS DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION COORDINATED PROGRAM REVIEW REPORT

INTRODUCTION TO THE FINAL REPORT

During the week of April 14, 2014, a three-member Massachusetts Department of Elementary and Secondary Education team visited the LABBB Collaborative to evaluate the implementation of selected criteria in the program areas of special education, civil rights and other related general education requirements. The team visited the programs located in the following public schools: Fox Hill Elementary School, Burlington; Memorial Elementary School, Burlington; Francis Wyman Elementary School, Burlington; Wellington Elementary School, Belmont; Butler Elementary School, Belmont; John Glenn Middle School, Bedford; Chenery Middle School, Belmont; Belmont High School, Belmont; Lexington High School, Lexington; Bedford High School, Bedford; and Minuteman Technical Career Directions Program, Lexington. The team appreciated the opportunity to interview staff, observe classroom facilities and review the programs underway in the collaborative.

The Department is submitting the following Coordinated Program Review Report containing findings made pursuant to this onsite visit. In preparing this report, the team reviewed extensive written documentation regarding the operation of the district's programs, together with information gathered by means of the following Department program review methods:

- Interviews of six administrative staff from LABBB Collaborative and 11 school principals.
- Interviews of 36 teaching and support services staff across all levels.
- Student record review: A sample of 40 special education student records was selected by the Department. These student records were first examined by local staff, whose comments were then verified by the onsite team using standard Department record review procedures.
- Surveys of parents of students with disabilities: 50 parents of students with disabilities were sent surveys that solicited information about their experiences with the collaborative's implementation of special education programs, related services and procedural requirements. Twenty of these parent surveys were returned to the Department of Elementary and Secondary Education for review.
- Observation of classrooms and other facilities. A sample of 20 instructional classrooms and other school facilities used in the delivery of programs and services was visited to examine general levels of compliance with program requirements

The report includes findings in the program areas reviewed organized under three components: Special Education Legal Standards, Civil Rights: Methods of Administration and Other Related General Education Requirements, and Approved Public Day Program Standards.

The findings in each area explain the "ratings," determinations by the team about the implementation status of the criteria reviewed. The ratings indicate those criteria that were found by the team to be substantially "Implemented" or implemented in a "Commendable" manner. (Refer to the "Definition of Compliance Ratings" section of the report.) Where criteria were found to be either "Partially Implemented" or "Not Implemented," the collaborative must propose to the Department corrective actions to bring those areas into compliance with the controlling statute or regulation. The collaborative is expected to incorporate the corrective action into their professional development plans.
