ADDENDUM TO IFB 2.0

LABBB Special Education Vehicle Invitation for Bids

Released: October 9, 2015

Bids due: November 17, 2015

The following three questions from prospective bidder(s) have come in to the LABBB Collaborative in the past few days and this set of answers is being provided for all interested parties.

Question 6:

On the bid request for the 10 passenger 7D Van it asks for driver and front passenger arm rests. The only way you can get front passenger seat arm rests is if you get cloth seats throughout the entire van. If you want vinyl interior for the kids you can only get driver side arm rest not the passenger side. Which do you want, vinyl or cloth?

Answer 6:

Vinyl is fine.

Question 7:

Do you want the one seat on the wheelchair van diagram to be an integrated child seat? That's what the diagram is showing.

Answer 7:

No, we do not want an integrated child seat on the van.

Question 8:

In order to get only the driver seat on the wheelchair van with armrest it has to be cloth for driver but all the installed seating will be vinyl. Is that Okay?

Answer 8:

Yes, that is Okay.
